Madlen Sargsyan

UI/UX Designer

EMAIL sargsyanmadlenn@gmail.com PORTFOLIO behance.net/madlensargsyan BASED IN Armenia

PROFILE

UI/UX designer with experience creating websites and digital products across iGaming, food, education and entertainment. I turn complex requirements into clear, user-friendly interfaces with thoughtful structure, clean visual systems and practical user flows. A graphic design background and UX research training shape how I work.

EXPERIENCE

UI/UX Designer

Nov 2023 – Present

The Point · Armenia

- Design websites and landing pages for local and international clients, including products in the iGaming industry.
- Translate project requirements into roadmaps, user flows, wireframes, responsive interfaces and handoff-ready designs.

Product Designer

Aug 2023 – Nov 2023

VV-Soft · Armenia

- Designed websites and landing pages for the iGaming industry, focusing on clear navigation, visual consistency and responsive layouts.

SELECTED PROJECTS

Tom Horn Gaming

WEBSITE REDESIGN · IGAMING · 2024

Redesigned the website to align with a new brandbook and logo. Wireframes, desktop and mobile UI, prototypes and developer handoff in Figma, working with an art director, a project manager and a developer.

Schole Centre

NEW WEBSITE · EDUCATION · 2024

Designed a website for an educational centre: course tiles for comparing options, Online/Offline format labels, trainer pages and registration forms, plus the site's animations, on desktop and mobile.

Yandex Travel — Travel Summary

UX RESEARCH · PROTOTYPING · 2026 · EDUCATIONAL PROJECT, YANDEX PRACTICUM

Ran 3 discovery interviews and 4 moderated usability tests, built a persona and journey map, and designed the Figma prototype. Found that hidden data still appeared in the preview in 3 of 4 sessions, and prioritised fixes.

SKILLS

UX research · Usability testing · Wireframing · User flows · Interactive prototyping · Responsive design · Design systems · Developer handoff
